MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The fundamental investment objective of Sun Life BlackRock Canadian Composite EquityClass (the "Fund") is to seek long-term capital appreciation through exposure to primarily equity securities included in a broad and recognized Canadian equity market index that includes primarily large and mid-market capitalization companies the securities of which are considered to be the most liquid in Canadian equity markets by investing primarily in units of Sun Life BlackRock Canadian Composite Equity Fund or its successor fund (the "underlying Trust Fund").

The underlying Trust Fund's sub-advisor (the "sub-advisor") is BlackRock Asset Management Canada Limited. The sub-advisor invests directly in the securities included in the Index and/or may achieve exposure to some or all of the Index by investing in exchange-traded funds, mutual funds or derivatives that are correlated to the performance of the Index. The underlying Trust Fund rebalances on a quarterly basis based on changes to the underlying Index, or more frequently if warranted by market conditions.

Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$0.4 million to \$0.6 million. The increase in net asset value was due to positive net sales, partially offset by negative performance in the period.

During the period, the Fund returned -9.5% for Series A shares. This result trailed the Fund's benchmark, the S&P/TSX Capped Composite Index, which returned -8.3%. The performance returns of other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series.

The Fund currently invests substantially all of its holdings in the underlying Trust Fund. The following commentary relates to the underlying Trust Fund.

Canadian markets continued to lose ground with the S&P TSX Composite Index losing another 1.40% in the fourth quarter, leaving the index down 8.3% for 2015. Small market capitalization names fared better, albeit modestly, losing 41 basis points in the quarter; however, the S&P TSX Completion Index was down 10.0% for the year. The challenges facing Valeant Pharmaceuticals International, Inc. continued in the fourth quarter, and once again Health Care ended up being the worst performing sector in the composite, with Consumer Discretionary as the second worst overall. Financials improved and was the top spot being up 53 basis points during the quarter.

Recent Developments

The fourth quarter was quite volatile. October started off with securities with high momentum exposures experiencing large swings with some securities exhibiting returns in excess of 100%. Penn West, for example, was up 164% from the October 1st to October 9th period. Consequently, many investors were forced to reduce risk in the securities exposed to these swings. On the mergers and acquisitions front, one of the more notable announcements was Canadian Pacific Railway's proposal to purchase Norfolk Southern Railway, making headlines before Norfolk ultimately declined the proposal. One of the more pronounced themes to the Canadian markets was a sustained selling of securities operating under a "growth-by-acquisition" strategy. It started with the Energy names and found its way to Financials companies like DH Corporation and Element Financial Corporation.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

Sun Life BlackRock Canadian Composite Equity Class

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the “Administration Expenses”) in return for a fixed administration fee paid to the Manager by each Fund (“Administration Fee”). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund’s Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the “Fund Costs”). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund’s Independent Review Committee (“IRC”); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of shares. The Fund Costs that are specific to a series of shares are allocated to that series. These amounts are paid out of the assets attributed to each series of shares of the Fund, which reduces the return you may receive.

Series Description

The Fund offers the following series of shares: A, AT5, E, EF, F, I and O. The date of creation for Series A, AT5 and F shares was August 1, 2013, the date of creation for Series E and O shares was April 1, 2014, the date of creation for Series I shares was May 1, 2015 and the date of creation for Series EF was August 10, 2015.

Series A and AT5 shares are available to all investors.

Series AT5 shares are designed to provide investors with a fixed monthly distribution based upon a target annualized distribution rate of 5% of the net asset value per share as at the end of the prior year.

Series E shares are available to investors through the Private Client program and must be purchased through a Private Client account. Investors in Series E shares are eligible for management fee reductions, if any, based on the value of Series E shares held in their Private Client account. Any management fee reduction will be paid to investors as a fee distribution by the Fund, which will be reinvested in additional Series E shares. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series E shares will be converted to Series A shares on February 5, 2016. Please refer to the Fund’s simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series EF shares are available to investors through the Private Client program and only available to investors who have a Private Client fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Series EF shares must be purchased through a Private Client fee-based account. Instead of paying sales charges, investors buying Series EF shares pay fees to their dealer for investment advice and other services. Investors in Series EF shares are eligible for management fee reductions, if any, based on the value of Series EF shares held in their Private Client fee-based account, which management fee reduction will be paid to the investors by reinvesting in additional Series EF shares. The Manager does not pay any commissions to dealers in respect of Series EF shares. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series EF shares will be converted to Series F shares on February 5, 2016. Please refer to the Fund’s simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series F shares are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F shares pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F shares, so the Manager can charge a lower management fee.

Series I shares are special purpose securities that are currently only available to other mutual funds and eligible institutional investors. Series I shares are not sold to the general public. Each Series I investor negotiates its own management and advisory fee that is paid directly to the Manager.

Series O shares are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O shares held in the investor’s Private Client account. Series O

Sun Life BlackRock Canadian Composite Equity Class

management fee is paid, after subtracting any management fee reductions, by a redemption of Series O shares in the investor's account.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ¹	General Administration, Investment Advice and Profit (%)
Series A Shares	1.00	41	59
Series AT5 Shares	1.00	45	55
Series E Shares	1.00	44	56
Series EF Shares	0.50	–	100
Series F Shares	0.50	–	100
Series I Shares	–	–	–
Series O Shares ²	0.50	–	100

¹ Includes sales and trailing commissions and marketing support programs.

² Series O management fees are not paid by the fund. Series O investors pay management fees directly to the manager.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements.
