MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The fundamental investment objective of Sun Life Franklin Bissett Canadian Equity Class (the "Fund") is to seek to achieve long-term capital appreciation primarily by investing directly in a diversified portfolio of mid to large capitalization Canadian equities or indirectly by investing in mutual funds (including exchange-traded funds) that invest in such securities.

The Fund's sub-advisor is Franklin Bissett Investment Management (the "sub-advisor"). The sub-advisor currently intends to achieve the Fund's investment objectives by investing all, or substantially all, of the assets of the Fund in units of Franklin Bissett Canadian Equity Fund (the "underlying Trust Fund"), a mutual fund that is managed and advised by the sub-advisor. In pursuing the underlying Trust Fund's investment objectives, the sub-advisor uses a bottom-up investment approach that favours businesses with experienced management, effective capital allocation, financial strength and durable business models. The sub-advisor primarily invests in Canadian equity securities of high quality growth oriented entities.

Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

The Fund has a performance inception date of March 27, 2015. The period covered in this report is from the inception date to December 31, 2015. The net asset value of the Fund increased from \$0.2 million to \$0.8 million at the end of the period. The increase in net asset value was attributable to positive net sales, partially offset by negative performance in the period.

During the period, the Fund returned -9.8% for Series A shares. This result surpassed the Fund's benchmark, the

S&P/TSX Composite Index, which returned -10.1%. The performance returns of other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series.

The Fund currently invests substantially all of its holdings in units of the underlying Trust Fund. The following commentary relates to the underlying Trust Fund.

The underlying Trust Fund experienced positive sector allocation and security selection and interaction during the period. Security selection and interaction notably benefited from individual holdings in the Consumer Discretionary, Consumer Staples and Industrials sectors, partially offset by individual holdings in the Energy sector. In Consumer Discretionary, the underlying Trust Fund benefited from Restaurant Brands International as well as from not owning the underperforming Magna International. In Consumer Staples, Saputo and Metro were beneficial. In Industrials, the underlying Trust Fund benefited from MacDonald, Dettwiler and Associates. In Energy, detractors included Bonavista Energy, Canadian Energy Services & Technology and NuVista Energy, while Keyera was beneficial. Other notable names that benefited the underlying Trust Fund include Brookfield Asset Management and Onex Corporation in Financials and Enghouse Systems in Information Technology, as well as not owning the underperforming Valeant Pharmaceuticals in Health Care. Another notable detractor was Home Capital Group in Financials. From a sector allocation standpoint, the underlying Trust Fund benefited most notably from being underweight the Health Care sector.

Recent Developments

While some of the opportunities facing the underlying Trust Fund will benefit from, if not require, an improvement in such conditions as the global economy, the Canadian economy and/or commodity prices, the underlying Trust Fund's investment approach continues to emphasize the evaluation of the specific businesses and their financial capability in below-trend, above-trend and normalized economic and industry conditions. At present, the sub-advisor believes the opportunities available in the market are far more attractive than normal, and will allow the underlying Trust Fund to build on its long-term track record of favourable absolute, relative and risk-adjusted returns.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the “Manager”) is the manager and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained Franklin Bissett Investment Management, part of Franklin Templeton Investments Corp. to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the “Administration Expenses”) in return for a fixed administration fee paid to the Manager by each Fund (“Administration Fee”). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund’s Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the “Fund Costs”). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund’s Independent Review Committee (“IRC”); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of shares. The Fund Costs that are specific to a series of shares are allocated to that series. These amounts are paid out of the assets attributed to each series of shares of the Fund, which reduces the return you may receive.

Series Description

The Fund offers the following series of shares: A, AT5, E, F, I and O. The date of creation for all series was March 27, 2015.

Series A and AT5 shares are available to all investors.

Series AT5 shares are designed to provide investors with a fixed monthly cash distribution based upon a target annualized distribution rate of 5% of the net asset value per share as at the end of the prior year.

Series E shares are available to investors through the Private Client program and must be purchased through a Private Client account. Investors in Series E shares are eligible for management fee reductions, if any, based on the value of Series E shares held in their Private Client account. Any management fee reduction will be paid to investors as a fee distribution by the Fund, which will be reinvested in additional Series E shares. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series E shares will be converted to Series A shares on February 5, 2016. Please refer to the Fund’s simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series F shares are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F shares pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F shares, so the Manager can charge a lower management fee.

Series I shares are special purpose securities that are currently only available to other mutual funds and eligible institutional investors. Series I shares are not sold to the general public. Each Series I investor negotiates its own management and advisory fee that is paid directly to the Manager.

Series O shares are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O shares held in the investor’s Private Client account. Series O management fee is paid, after subtracting any management fee reductions, by a redemption of Series O shares in the investor’s account.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

| | Maximum Annual Management Fee Rate (%) | As a Percentage of Management Fees | |
|------------------------------|--|--------------------------------------|--|
| | | Dealer Compensation (%) ¹ | General Administration, Investment Advice and Profit (%) |
| Series A Shares | 2.00 | 52 | 48 |
| Series AT5 Shares | 2.00 | 46 | 54 |
| Series E Shares | 2.00 | 46 | 54 |
| Series F Shares | 1.00 | – | 100 |
| Series I Shares | – | – | – |
| Series O Shares ² | 1.00 | – | 100 |

¹ Includes sales and trailing commissions and marketing support programs.

² Series O management fees are not paid by the fund. Series O investors pay management fees directly to the manager.

PAST PERFORMANCE

The indicated rates of return are the historical annualized and annual compounded total returns including changes in share value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any shareholder that would have reduced returns. Mutual funds are not guaranteed. How a fund performed in the past does not necessarily indicate how it will perform in the future.
