ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

for the financial year ended December 31, 2015

Sun Life MFS Canadian Equity Class

I L L U M I N A T I N G

Sun Life MFS Canadian Equity Class

This annual management report of fund performance contains financial highlights but does not contain the complete financial statements of the investment fund. You can request a free copy of the annual financial statements by calling 1-877-344-1434, by sending an email to us at info@sunlifeglobalinvestments.com or by writing to us at Sun Life Global Investments (Canada) Inc., 150 King Street West, Toronto, Ontario, M5H 1J9. Our financial statements are available on our website at www.sunlifeglobalinvestments.com and on SEDAR at www.sedar.com. All of the financial information is calculated based on the pricing Net Asset Valuation for the investment fund, unless otherwise stated.

Shareholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The fundamental investment objective of Sun Life MFS Canadian Equity Class (the "Fund") is to seek long-term capital growth through exposure to primarily a diversified portfolio of Canadian equities by investing primarily in units of Sun Life MFS Canadian Equity Fund or its successor fund (the "underlying Trust Fund").

The underlying Trust Fund's sub-advisor (the "sub-advisor") is MFS Investment Management Canada Limited ("MFSIM") and the sub-advisor to MFSIM is MFS Institutional Advisors, Inc ("MFS"). In pursuing the underlying Trust Fund's investment objective, the sub-advisor seeks to invest in equity securities of companies it believes to have above-average earnings growth potential compared to other companies or seeks to invest in equity securities of companies that it believes are undervalued compared to their perceived worth. The underlying Trust Fund may invest in companies of any size and the issuers will be located primarily in Canada. The underlying Trust Fund may invest up to 40% of the underlying Trust Fund's assets in non-Canadian securities. Using a bottom-up investment approach – investments are selected primarily based on fundamental analysis of issuers and their potential in light of their current financial condition and industry position, as well as market, economic, political and regulatory conditions. Other factors considered are earnings, cash flows, competitive position and management ability of issuers.

Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$0.5 million to \$0.6 million. The increase in net asset value was due to positive net sales, partially offset by negative performance in the period.

During the period, the Fund returned -6.2% for Series A shares. This result surpassed the Fund's benchmark, the S&P/TSX Capped Composite Index, which returned -8.3%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series.

The Fund currently invests substantially all of its holdings in the underlying Trust Fund. The following commentary relates to the underlying Trust Fund.

Stock selection in the Materials sector contributed to performance relative to the S&P/TSX Capped Composite Index. Most notably, the underlying Trust Fund's overweight position in labels producer CCL Industries and agricultural products supplier Agrium benefited relative performance. The underlying Trust Fund's underweight position in shares of fertilizer producer Potash Corporation of Saskatchewan also aided relative results as the company performed poorly over the reporting period. The underlying Trust Fund's timing of ownership in shares of diversified mining company Teck Resources further bolstered relative returns.

A combination of stock selection and an underweight position in the Energy sector also boosted relative performance. Not owning shares of natural gas company EnCana was a positive factor for relative returns.

Elsewhere, the underlying Trust Fund's overweight positions in financial services firm Element Financial, supply chain applications and networks company Kinaxis, convenience stores operator Alimentation Couch-Tard, pharmaceutical company Valeant Pharmaceuticals and food retailer Loblaw Companies supported relative performance.

A combination of stock selection and underweight position in the Telecommunication Services sector detracted from relative results as this was one of the relatively strong-performing sectors over the reporting period. Not owning shares of communications services provider BCE hurt relative performance as the company outperformed the benchmark. The timing of the underlying Trust Fund's ownership in shares of communications services provider Rogers Communication also weakened relative returns.

Stock selection and underweight position in the Financials sector was another area of relative weakness. Not owning

Sun Life MFS Canadian Equity Class

shares of asset management company Brookfield Asset Management and diversified financial services firm Sun Life Financial held back relative performance. The underlying Trust Fund's overweight position in asset management company IGM Financial also hurt relative returns as the company turned in poor performance.

In other sectors, the underlying Trust Fund's overweight positions in natural gas transmission and distributor Enbridge, gold miners Eldorado Gold and Goldcorp and oil and natural gas company Cenovus Energy weakened relative performance. The underlying Trust Fund's position in oil and natural gas company Boulder Energy also held back relative returns.

Recent Developments

Sluggish global growth weighed on both developed and emerging market ("EM") economies during the year. EM economies have been particularly lackluster. While the U.S. Federal Reserve began raising interest rates at the end of the year, other large developed economies continued to keep interest rates low, particularly the European Central Bank and the Bank of Japan. Focus remained on China after policy missteps by the Chinese government shook up global markets over the summer, beginning with the uncoordinated response to the stock market's boom and bust and then the decision to devalue the renminbi in August. China subsequently ramped up a wide range of monetary and fiscal measures to stimulate the economy and boost sentiment. Its economy appeared to stabilize late in the period. Also at the end of the period, the Chinese renminbi was granted reserve currency status by the International Monetary Fund ("IMF"), which announced its inclusion in the IMF's Special Drawing Rights currency basket effective October 1, 2016.

During the second half of the year, the U.S. faced an earnings recession caused primarily by the sharp decline in the prices of oil and other commodities. Earnings contractions were concentrated primarily in the Energy, Materials and Industrial sectors. An additional challenge for earnings was the sharp rise in the U.S. dollar over the period. Exports were depressed by the dollar's strength and falling demand in emerging markets. Consumer spending held up well during the second half of year amid a modest increase in real wages and a boost from falling gasoline prices. Demand for autos reached near-record highs late in the period. In emerging markets, two key factors weighed on economies and asset prices: weaker Chinese growth, and the resulting decline in commodity prices, in addition to expectations for higher U.S. interest rates. Structural factors like floating exchange rates and fiscal buffers partially offset these cyclical headwinds.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by each Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund's Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of shares. The Fund Costs that are specific to a series of shares are allocated to that series. These amounts are paid out of the assets attributed to each series of shares of the Fund, which reduces the return you may receive.

Series Description

The Fund offers the following series of shares: A, AT5, E, EF, F and O. The date of creation for Series A, AT5 and F shares was August 1, 2013, the date of creation for Series E and O shares was April 1, 2014 and the date of creation for Series EF shares was August 10, 2015.

Sun Life MFS Canadian Equity Class

Series A and AT5 shares are available to all investors.

Series AT5 shares are designed to provide investors with a fixed monthly distribution based upon a target annualized distribution rate of 5% of the net asset value per share as at the end of the prior year.

Series E shares are available to investors through the Private Client program and must be purchased through a Private Client account. Investors in Series E shares are eligible for management fee reductions, if any, based on the value of Series E shares held in their Private Client account. Any management fee reduction will be paid to investors as a fee distribution by the Fund, which will be reinvested in additional Series E shares. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series E shares will be converted to Series A shares on February 5, 2016. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series EF shares are available to investors through the Private Client program and only available to investors who have a Private Client fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Series EF shares must be purchased through a Private Client fee-based account. Instead of paying sales charges, investors buying Series EF shares pay fees to their dealer for investment advice and other services. Investors in Series EF shares are eligible for management fee reductions, if any, based on the value of Series EF shares held in their Private Client fee-based account, which management fee reduction will be paid to the investors by reinvesting in additional Series EF shares. The Manager does not pay any commissions to dealers in respect of Series EF shares. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series EF shares will be converted to Series F shares on February 5, 2016. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series F shares are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F shares pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F shares, so the Manager can charge a lower management fee.

Series O shares are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O shares held in the investor's Private Client account. Series O management fee is paid, after subtracting any management

fee reductions, by a redemption of Series O shares in the investor's account.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance from the date of inception to December 31, 2015.

The Fund's Net Asset Value per Share (\$)⁽¹⁾

Net asset value per share (\$) ⁽¹⁾	9.71	10.64

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) including the Fund's allocated percentage of Fund-on-Funds' expenses for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

⁽⁴⁾ The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the

chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.

⁽⁵⁾ Percentages are annualized.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	As a Percentage of Management Fees		
	Maximum Annual Management Fee Rate (%)	Dealer Compensation (%) ¹	General Administration, Investment Advice and Profit (%)
Series A Shares	1.95	42	58
Series AT5 Shares	1.95	46	54
Series E Shares	1.95	46	54
Series EF Shares	1.00	—	100
Series F Shares	1.00	—	100
Series O Shares ²	1.00	—	100

¹ Includes sales and trailing commissions and marketing support programs.

² Series O management fees are not paid by the fund. Series O investors pay management fees directly to the manager.

PAST PERFORMANCE

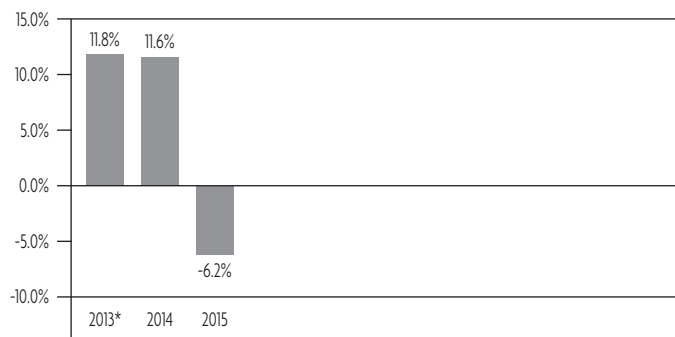

The indicated rates of return are the historical annualized and annual compounded total returns including changes in share value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any shareholder that would have reduced returns. Mutual funds are not guaranteed. How a fund performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

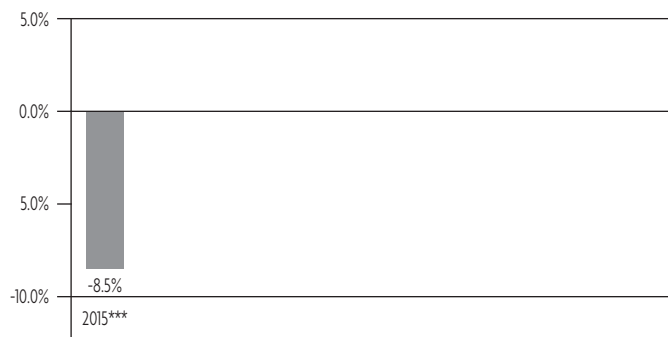

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each financial year.

Sun Life MFS Canadian Equity Class

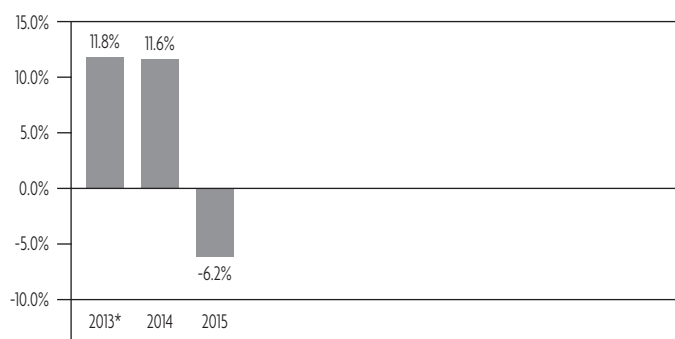

Series A Shares – Annual return for the periods ended December 31, 2015

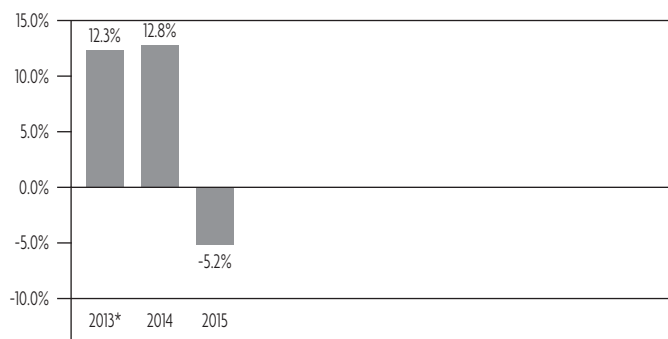

Series EF Shares – Annual return for the period ended December 31, 2015

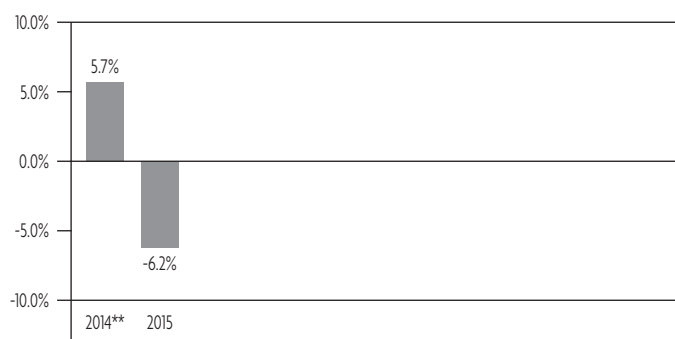

Series AT5 Shares – Annual return for the periods ended December 31, 2015

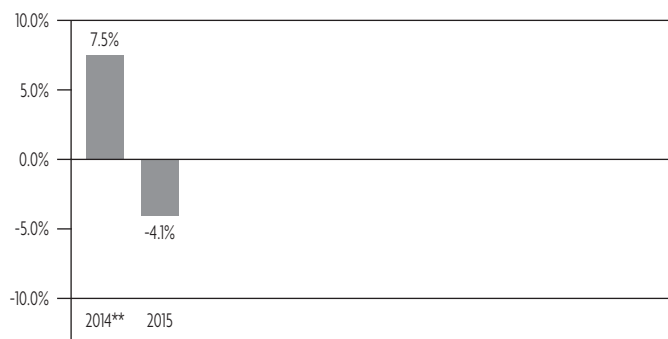

Series F Shares – Annual return for the periods ended December 31, 2015

Series E Shares – Annual return for the periods ended December 31, 2015

Series O Shares – Annual return for the periods ended December 31, 2015

* for the period of August 1, 2013 to December 31, 2013

** for the period of April 1, 2014 to December 31, 2014

*** for the period of August 10, 2015 to December 31, 2015

Annual Compound Returns

The following table compares the historical annual compound total returns of Series A, AT5, E, F and O shares of the Fund with the S&P/TSX Capped Composite Index.

The S&P/TSX Capped Composite covers approximately 95% of the Canadian equities market, and has been the primary gauge for Canadian-based, Toronto Stock Exchange-listed companies since 1977.

Sun Life MFS Canadian Equity Class

The Series A shares outperformed the benchmark since inception and over the past year.

	1 Year	3 Year	5 Year	10 Year	Performance Start Date ⁽¹⁾⁽²⁾⁽³⁾
Sun Life MFS Canadian Equity Class – Series A	(6.2%)	N/A	N/A	N/A	6.7%
Sun Life MFS Canadian Equity Class – Series AT5	(6.2%)	N/A	N/A	N/A	6.7%
Sun Life MFS Canadian Equity Class – Series F	(5.2%)	N/A	N/A	N/A	7.8%
S&P/TSX Capped Composite Index	(8.3%)	N/A	N/A	N/A	4.8%
Sun Life MFS Canadian Equity Class – Series E	(6.2%)	N/A	N/A	N/A	(0.5%)
Sun Life MFS Canadian Equity Class – Series O	(4.1%)	N/A	N/A	N/A	1.7%
S&P/TSX Capped Composite Index	(8.3%)	N/A	N/A	N/A	(2.6%)

⁽¹⁾ The performance start date for Series A, AT5 and F shares was August 1, 2013.

⁽²⁾ The performance start date for Series E and O shares was April 1, 2014.

⁽³⁾ Performance for Series EF shares is not shown as Series EF has not been distributed under a simplified prospectus for 12 months.

⁽²⁾ The Fund invests substantially all of its assets directly in the underlying Trust Fund. The summary of investment portfolio for the Fund presents the investments as a percentage of the net asset value of the underlying Trust Fund.

⁽³⁾ Cash and Cash Equivalents, for the purpose of this chart, includes other assets less liabilities.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

Sun Life MFS Canadian Equity Class

You can find more information about each Fund in our Annual Information Form, and each Fund's management report of fund performance and financial statements, once available. These documents are incorporated by reference into this document, which means that they legally form part of this document just as if they were printed as part of it.

For a free copy of these documents, call us toll-free at 1-877-344-1434 or ask your advisor. These documents and other information about the Funds, such as information circulars and material contracts, are also available at www.sunlifeglobalinvestments.com or www.sedar.com.
