ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE

for the financial year ended December 31, 2015

Sun Life MFS Dividend Income Fund

I L L U M I N A T I N G

Sun Life MFS Dividend Income Fund

This annual management report of fund performance contains financial highlights but does not contain the complete financial statements of the investment fund. You can request a free copy of the annual financial statements by calling 1-877-344-1434, by sending an email to us at info@sunlifeglobalinvestments.com or by writing to us at Sun Life Global Investments (Canada) Inc., 150 King Street West, Toronto, Ontario, M5H 1J9. Our financial statements are available on our website at www.sunlifeglobalinvestments.com and on SEDAR at www.sedar.com. All of the financial information is calculated based on the pricing Net Asset Valuation for the investment fund, unless otherwise stated.

Unitholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Investment Objective and Strategies

The fundamental investment objective of Sun Life MFS Dividend Income Fund (the "Fund") is to aim for income generation and capital appreciation by investing primarily in dividend or income paying securities, including royalty trust units, real-estate investment trust units and limited partnership units and other exchange-listed participating securities. The Fund may also invest in securities of other mutual funds.

The Fund's sub-advisor is MFS Investment Management Canada Limited ("MFSIM") and the sub-advisor to MFSIM is MFS Institutional Advisors, Inc. ("MFS"). In pursuing the Fund's investment objective, the sub-advisor normally invests in equity and fixed income securities that generate some form of income. The Fund may invest in dividend or income paying securities including preferred shares, securities convertible into stocks, real estate investment trust units, royalty trust units, limited partnership units and other exchange-listed participating securities, or warrants on dividend and income paying securities. The Fund may invest in companies of any size but may tend to place a focus on companies with large and medium capitalizations with issuers located primarily in Canada. Using a bottom-up approach to buying and selling investments for the Fund – investments are selected based on fundamental and quantitative analysis of individual issuers and their potential in light of their current financial condition, market, economic, political and regulatory conditions and considers factors such as analysis of an issuer's earnings, cash flows, competitive position and management ability.

Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

Results of Operations

During the period, the net asset value of the Fund increased from \$17.6 million to \$20.5 million. The increase in net asset

value was due to positive net sales, partially offset by negative performance during the period.

During the period, the Fund returned -8.7% for Series A units. This result trailed the Fund's benchmark, the S&P/TSX Capped Composite Index, which returned -8.3%. The performance returns for other series of this Fund are similar to those of Series A except for differences in expenses structures. Please refer to 'Past Performance' section of this report for performance of each series.

Stock selection in the Financials sector detracted from relative results. Most notably, the Fund's positions in insurance company Delta Lloyd (Netherlands) and not owning asset management company Brookfield Asset Management weakened relative performance. The Fund's overweight position in real estate investment trust Dream Office Real Estate Investment Trust also hurt relative results.

Stock selection in the Utilities sector was another detractor for relative performance. There were no individual securities within this sector that were among the Fund's top relative detractors.

In other sectors, the Fund's overweight positions in oil and gas companies Crescent Point Energy and TORC Oil & Gas, integrated energy company Husky Energy and oil driller Trinidad Drilling weighed on relative returns as all four companies underperformed the benchmark during the reporting period. Not owning enterprise software solutions Constellation Software and information technology and business process solutions CGI Group also held back relative results. Timing of establishing a position in pharmaceutical company Valeant Pharmaceuticals International also detracted from relative returns.

Stock selection in the Materials sector contributed to performance relative to the S&P/TSX Capped Composite Index. The Fund's overweight position in precious metals exploration company Agnico Eagle Mines was a notable contributor to relative performance. An underweight position in fertilizer producer Potash Corporation of Saskatchewan also aided relative returns. Not owning shares of mining and metals company First Quantum Minerals further boosted relative results as the company turned in poor performance over the reporting period.

Stock selection in the Energy sector was another area of relative strength. The Fund's holdings of independent

Sun Life MFS Dividend Income Fund

petroleum products company Marathon Petroleum and independent oil refiner Valero Energy contributed to relative performance. Not owning shares of natural gas company EnCana also benefited relative results.

Elsewhere, shares of telecommunications networking firm Telecom Italia (Italy), advertising and broadcasting company ProSiebenSat.1 Media (Germany) and pharmaceutical giant Pfizer bolstered relative performance as all three companies outpaced the Fund's benchmark. The Fund's overweight position in media and marketing company Transcontinental further supported relative performance.

During the reporting period, the Fund's relative currency exposure, resulting primarily from differences between the Fund's and the benchmark's exposures to holdings of securities denominated in foreign currencies, contributed to relative performance. All of MFS' investment decisions are driven by the fundamentals of each individual opportunity and, as such, it is common for the Fund to have different currency exposure than the benchmark.

Recent Developments

Sluggish global growth weighed on both developed and emerging market ("EM") economies during the year. EM economies have been particularly lackluster. While the U.S. Federal Reserve began raising interest rates at the end of the year, other large developed economies continued to keep interest rates low, particularly the European Central Bank and the Bank of Japan. Focus remained on China after policy missteps by the Chinese government shook up global markets over the summer, beginning with the uncoordinated response to the stock market's boom and bust and then the decision to devalue the renminbi in August. China subsequently ramped up a wide range of monetary and fiscal measures to stimulate the economy and boost sentiment. Its economy appeared to stabilize late in the period. Also at the end of the period, the Chinese renminbi was granted reserve currency status by the International Monetary Fund ("IMF"), which announced its inclusion in the IMF's Special Drawing Rights currency basket effective October 1, 2016.

During the second half of the year, the U.S. faced an earnings recession caused primarily by the sharp decline in the prices of oil and other commodities. Earnings contractions were concentrated primarily in the Energy, Materials and Industrial sectors. An additional challenge for earnings was the sharp rise in the U.S. dollar over the period. Exports were depressed by the dollar's strength and falling demand in emerging markets. Consumer spending held up well during the second half of year amid a modest increase in real wages and a boost from falling gasoline prices. Demand for autos reached near-record highs late in the period. In emerging markets, two key factors weighed on economies and asset prices: weaker Chinese growth, and the resulting decline in commodity prices, in addition to expectations for higher U.S. interest

rates. Structural factors like floating exchange rates and fiscal buffers partially offset these cyclical headwinds.

Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the "Manager") is the manager, trustee and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited ("MFSIM"), an affiliate, to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., which also has an indirect majority ownership interest in MFSIM.

Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the "Administration Expenses") in return for a fixed administration fee paid to the Manager by each Fund ("Administration Fee"). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund's Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the "Fund Costs"). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee ("IRC"); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of units. The Fund Costs

Sun Life MFS Dividend Income Fund

that are specific to a series of units are allocated to that series. These amounts are paid out of the assets attributed to each series of units of the Fund, which reduces the return you may receive.

Series Description

The Fund offers the following series of units: A, D, E, F, I and O. The date of creation for Series A units was March 31, 2009, the date of creation for Series D units was March 27, 2006, the date of creation for Series F units was February 13, 2008, and the date of creation for I Series units was November 28, 2008. Prior to April 2, 2012, these series were called classes. Effective April 2, 2012, Class O units of the Fund were renamed as Series I units and Class C units were reclassified as Series I units. The date of creation for Series E and O units was April 1, 2014.

Series A units are available to all investors.

Series D units are only available for purchase by existing investors who held Class D units of the Fund on March 30, 2012. Investors may switch their Series D units of one fund into Series D units of another Sun Life Global Investments Mutual Fund, but may not switch units of another series into Series D units. Once a Series D investor no longer owns any Series D units, the investor may not purchase additional Series D units. In addition, Series D units may be switched into any other series (if available), if the investor meets the applicable requirements for those series.

Series E units are available to investors through the Private Client program and must be purchased through a Private Client account. Investors in Series E units are eligible for management fee reductions, if any, based on the value of Series E units held in their Private Client account. Any management fee reduction will be paid to investors as a fee distribution by the Fund, which will be reinvested in additional Series E units. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series E units will be re-designated as Series A units on February 5, 2016. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series F units are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F units pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F units, so the Manager can charge a lower management fee.

Series I units are special purpose securities that are currently only available to other mutual funds and eligible institutional investors. Series I units are not sold to the general public. Each Series I investor negotiates its own management and

advisory fee that is paid directly to the Manager.

Series O units are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O units held in the investor's Private Client account. Series O management fees are paid, after subtracting any management fee reductions, by a redemption of Series O units in the investor's account.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance from the date of inception to December, 2015.

⁽¹⁾ This information is provided as at December 31 of the period shown, as applicable.

⁽²⁾ Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. Prior to 2015, the Manager of the Fund waived some of its management fees and/or absorbed some expenses that would normally be charged to the Fund.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

Sun Life MFS Dividend Income Fund

- (4) The Fund's portfolio turnover ratio indicates how actively the Fund's portfolio manager manages its portfolio investments. A portfolio turnover ratio of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a Fund's portfolio turnover ratio in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high portfolio turnover rate and the performance of the Fund.
- (5) Percentages are annualized.
- (6) 201, 2014 and 2013 figures are prepared in accordance with IFRS. Prior to 2013, comparatives are prepared in accordance with Canadian GAAP.

Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) ¹	General Administration, Investment Advice and Profit (%)
Series A Units	1.75	46	54
Series D Units	1.25	15	85
Series E Units	1.75	54	46
Series F Units	0.75	—	100
Series I Units	—	—	—
Series O Units ²	0.75	—	100

¹ Includes sales and trailing commissions.

² Series O management fees are not paid by the fund. Series O investors pay management fees directly to the manager.

PAST PERFORMANCE

The indicated rates of return are the historical annualized and annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed. How a fund performed in the past does not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart shows the Fund's annual performance for the period shown. The chart shows, in percentage terms, how much an investment made on the first day of each financial year would have grown or decreased by the last day of each period.

Series A Units – Annual return for the periods ended December 31, 2015

Series D Units – Annual return for the periods ended December 31, 2015

Series E Units – Annual return for the periods ended December 31, 2015

Sun Life MFS Dividend Income Fund

Series F Units – Annual return for the periods ended December 31, 2015

Series I Units – Annual return for the periods ended December 31, 2015

Series O Units – Annual return for the periods ended December 31, 2015

* for the period of March 31, 2009 to December 31, 2009

** for the period of March 27, 2006 to December 31, 2006

*** for the period of February 13, 2008 to December 31, 2008

**** for the period of November 28, 2008 to December 31, 2008

***** Returns not available for this time period because there were no investors in this series for a continuous calendar year.

***** for the period April 1, 2014 to December 31, 2014

Annual Compound Returns

The following table compares the historical annual compound total returns of Series A, D, E, F, I and O units of the Fund with the S&P/TSX Capped Composite Index.

The S&P/TSX Capped Composite covers approximately 95% of the Canadian equities market, and has been the primary gauge for Canadian-based, Toronto Stock Exchange-listed companies since 1977.

The Series A units outperformed the benchmark since inception, over the past five years and over the past three years, but underperformed the benchmark over the past year.

	Performance				Start Date
	1 Year	3 Year	5 Year	10 Year	(1)(2)(3)(4)(5)
Sun Life MFS Dividend Income Fund – Series A	(8.7)%	4.7%	5.0%	N/A	10.0%
S&P/TSX Capped Composite Index	(8.3)%	4.6%	2.3%	N/A	9.2%
Sun Life MFS Dividend Income Fund – Series E	(8.5)%	N/A	N/A	N/A	(3.2)%
Sun Life MFS Dividend Income Fund – Series O	(6.9)%	N/A	N/A	N/A	(1.4)%
S&P/TSX Capped Composite Index	(8.3)%	N/A	N/A	N/A	(2.6)%
Sun Life MFS Dividend Income Fund – Series D	(8.2)%	5.3%	5.6%	N/A	4.3%
S&P/TSX Capped Composite Index	(8.3)%	4.6%	2.3%	N/A	3.7%
Sun Life MFS Dividend Income Fund – Series F	(7.7)%	5.8%	6.1%	N/A	5.7%
S&P/TSX Capped Composite Index	(8.3)%	4.6%	2.3%	N/A	2.8%
Sun Life MFS Dividend Income Fund – Series I	(6.8)%	6.9%	N/A	N/A	6.3%
S&P/TSX Capped Composite Index	(8.3)%	4.6%	N/A	N/A	4.4%

(1) The performance start date for Series A units was April 1, 2009.

(2) The performance start date for Series D units was April 1, 2006. The performance start date may be different from the series creation date as the Manager did not distribute securities to the public immediately after their creation. The performance start date reflects the date the Manager began accepting subscriptions and calculating a daily net asset value for the series.

(3) The performance start date for Series F units was February 15, 2008. The performance start date may be different from the series creation date as the Manager did not distribute securities to the public immediately after their creation. The performance start date reflects the date the Manager began accepting subscriptions and calculating a daily net asset value for the series.

(4) The performance start date for Series I units was April 2, 2012.

(5) The performance start date for Series E and O units was April 1, 2014.

Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements.
