## MANAGEMENT DISCUSSION OF FUND PERFORMANCE

### Investment Objective and Strategies

The fundamental investment objective of Sun Life Money Market Fund (the "Fund") is to achieve a high level of current income while seeking to protect capital and to maintain liquidity by investing primarily in Canadian dollar-denominated money market instruments.

The Fund's sub-advisor is MFS Investment Management Canada Limited ("MFSIM") and the sub-advisor to MFSIM is MFS Institutional Advisors, Inc. ("MFS"). The sub-advisor invests the Fund in a diversified portfolio of short-term debt obligations of corporations (such as commercial paper), governments (such as treasury bills) and floating rate notes maturing within one year. The Fund may also invest up to 10% of the Fund's assets in Canadian dollar-denominated money market instruments of foreign issuers.

### Risk

There were no changes in the Fund's investment objective or strategy during the period which materially impacted the overall level of risk in the Fund. The risks associated with investing in the Fund remain as outlined in the Fund's Simplified Prospectus.

### Results of Operations

During the period, the net asset value of the Fund increased from \$2,816.6 million to \$3,325.0 million. The increase in net asset value was due to strong positive net sales, as well as positive performance in the period.

During the period, the Fund returned 0.15% for Series A units. This result trailed the Fund's benchmark, the FTSE TMX Canada 91 Day T-Bill Index, which returned 0.63%. The performance returns for other series of this Fund are similar to those of Series A except for the differences in expense structures. Please refer to the 'Past Performance' section of this report for performance of each series.

The Fund's term to maturity, which was below that of the benchmark's 91-days throughout the period, had a slightly

negative effect on performance given a modest degree of steepness in the curve.

The Fund's commitment to high-quality provincial holdings and commercial paper helped boost the Fund's overall yield during a period of remarkably low real interest rates.

### Recent Developments

As the global economic cycle matures, it becomes more and more apparent that the current expansion is unlike anything seen in decades. For one, the scars of the global financial crisis have yet to fully disappear as the debt and deflationary pressures remain and continue to limit economic growth. Moreover, the global economy continues to require extraordinary policy stimulus in the form of low interest rates, FX intervention, or fiscal measures. Even in the U.S. where the U.S. Federal Reserve (the "Fed") has raised rates, the path of hikes will likely be far more gradual than in past cycles.

The Canadian economy continues to feel the impact of these global macro trends as the sharp fall in commodity prices has eroded exports. Growth has slowed and debt ratios are well-above trend. Fiscal stimulus from the new government is expected to offer some support but is not likely to be a game changer. With interest rates already low and diverging from the U.S., the Canadian dollar has declined sharply.

The Bank of Canada surprised markets with a 25 basis point rate cut in January and followed up with an additional 25 basis point cut in July, joining the many global central banks that eased during the year. The rate cuts were designed to offset downside growth risks associated with the plunge in energy prices, and short-term interest rates in Canada fell accordingly. Given the weak domestic economic backdrop and poor outlook for commodities, the Bank of Canada is unlikely to follow the Fed anytime soon, especially as inflation pressures remain weak. The curve still remains very flat by historical standards with three and twelve-month Canada Treasury Bills yielding 0.52% and 0.51% respectively. In this environment, the Fund preserved a significant position in high-quality corporate and provincial holdings to help boost overall yield.

## Related Party Transactions

Sun Life Global Investments (Canada) Inc. (the “Manager”) is the manager, trustee and portfolio manager of the Fund.

The Manager is responsible for the provision of all general management and administrative services required by the Fund in its day-to-day operations, including providing or arranging for the provision of investment advice, bookkeeping, recordkeeping and other administrative services for the Fund.

As trustee, the Manager holds legal title to the Fund's investments in trust for unitholders. For its services, the Manager receives a management fee that is calculated as a percentage of the average net asset value of the Fund. This fee is calculated daily and payable monthly.

As portfolio manager, the Manager is responsible for managing the investment portfolio of the Fund directly or through sub-advisors. The Manager has retained MFS Investment Management Canada Limited (“MFSIM”) to act as a sub-advisor for the Fund.

The Manager is an indirect wholly owned subsidiary of Sun Life Financial Inc., which also has an indirect majority ownership interest in MFSIM.

## Fund Administrative Expenses

The Manager pays certain of the operating expenses of each Fund (the “Administration Expenses”) in return for a fixed administration fee paid to the Manager by each Fund (“Administration Fee”). The Administration Fee is based on the net asset value of each series of the Fund. The Administration Expenses include, but are not limited to, record keeper fees, accounting, audit and legal fees, bank and interest charges, safekeeping and custodial fees, taxes, administrative and systems costs, costs of reports to investors, prospectuses and other disclosure documents, regulatory filing fees (including those incurred by the Manager) and trustee fees for registered plans. The amount of this charge is disclosed as a fund administrative expense in the Fund's Statement of Comprehensive Income found in the annual financial statements (audited).

Each Fund also pays certain operating expenses directly (the “Fund Costs”). Fund Costs include: borrowing costs incurred by the Fund from time to time; costs in connection with portfolio transactions; fees and expenses payable to or in connection with the Fund's Independent Review Committee (“IRC”); taxes payable by the Fund; and the costs of complying with any new regulatory or legal requirement imposed on the Fund. Each Fund allocates Fund Costs proportionately among its series of units. The Fund Costs that are specific to a series of units are allocated to that series. These amounts are paid out of the assets attributed to each series of units of the Fund, which reduces the return you may receive.

## Series Description

The Fund offers the following series of units: A, D, E, EF, F, I and O. The date of creation for Series A, F, and I units was October 1, 2010, the date of creation for Series D units was March 30, 2012, the date of creation for Series E and O units was April 1, 2014 and the date of creation for Series EF units was August 10, 2015.

Series A units are available to all investors.

Series D units are only available for purchase by existing investors who held Class D units of a fund offered by the Manager (or by McLean Budden Limited) on March 30, 2012 (including funds that may have terminated due to mergers that were effective after that date). Investors may switch their Series D units of one fund into Series D units of another Sun Life Global Investments Mutual Fund, but may not switch units of another series into Series D units. Once a Series D investor no longer owns any Series D units, the investor may not purchase additional Series D units. In addition, Series D units may be switched into any other series (if available), if the investor meets the applicable requirements for those series.

Series E units are available to investors through the Private Client program and must be purchased through a Private Client account. Investors in Series E units are eligible for management fee reductions, if any, based on the value of Series E units held in their Private Client account. Any management fee reduction will be paid to investors as a fee distribution by the Fund, which will be reinvested in additional Series E units. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series E units will be re-designated as Series A units on February 5, 2016. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

Series EF units are available to investors through the Private Client program and only available to investors who have a Private Client fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Series EF units must be purchased through a Private Client fee-based account. Instead of paying sales charges, investors buying Series EF units pay fees to their dealer for investment advice and other services. Investors in Series EF units are eligible for management fee reductions, if any, based on the value of Series EF units held in their Private Client fee-based account, which management fee reduction will be paid to the investors by reinvesting in additional Series EF units. The Manager does not pay any commissions to dealers in respect of Series EF units. As announced on December 15, 2015, in connection with changes to the Private Client Program, all Series EF units will be re-designated to Series F units on February 5, 2016. Please refer to the Fund's simplified prospectus for more details about the captioned change and for details about the Private Client Program.

# Sun Life Money Market Fund

Series F units are available to investors who have a fee-based account with their dealer and whose dealer has signed an agreement with the Manager. Instead of paying sales charges, investors buying Series F units pay fees to their dealer for investment advice and other services. The Manager does not pay any commissions to dealers in respect of Series F units, so the Manager can charge a lower management fee.

Series I units are special purpose securities that are currently only available to other mutual funds and eligible institutional investors. Series I units are not sold to the general public. Each Series I investor negotiates its own management and advisory fee that is paid directly to the Manager.

Series O units are available to investors through the Private Client program and must be purchased through a Private Client account. Each Series O investor pays a management fee directly to the Manager and is eligible for management fee reductions, if any, based on the value of Series O units held in the investor's Private Client account. Series O management fees are paid, after subtracting any management fee reductions, by a redemption of Series O units in the investor's account.

<sup>(1)</sup> This information is provided as at December 31 of the period shown, as applicable.

<sup>(2)</sup> Management expense ratio is based on total expenses (excluding broker commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average Net Asset Value during the period. Prior to 2015, the Manager of the Fund waived some of its management fees and/or absorbed some expenses that would normally be charged to the Fund.

<sup>(3)</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average Net Asset Value during the period.

<sup>(4)</sup> The value of any trades to realign the Fund's portfolio after fund merger, if any, is excluded from the portfolio turnover rate.

<sup>(5)</sup> 2015, 2014 and 2013 figures are prepared in accordance with IFRS. Prior to 2013, comparatives are prepared in accordance with Canadian GAAP.

## Management Fees

The annual maximum management fee paid by the Fund is a percentage of the average daily net asset value of each series exclusive of any applicable taxes and operating expenses, which is accrued daily and is paid to the Manager monthly in arrears. Management fees pay for portfolio and investment advisory services, oversight of any service providers, marketing and promotional activities, arranging for the distribution and sale of securities of the Fund, general administration of fund operations and sales and trailing commissions paid to dealers.

# Sun Life Money Market Fund

The percentages and major services paid for out of the management fees are set out below:

	Maximum Annual Management Fee Rate (%)	As a Percentage of Management Fees	
		Dealer Compensation (%) <sup>1</sup>	General Administration, Investment Advice and Profit (%)
Series A Units	1.00	49	51
Series D Units	0.55	11	89
Series E Units	1.00	43	57
Series EF Units	0.75	—	100
Series F Units	0.75	—	100
Series I Units	—	—	—
Series O Units <sup>2</sup>	0.75	—	100

<sup>1</sup> Includes sales and trailing commissions.

<sup>2</sup> Series O management fees are not paid by the fund. Series O investors pay management fees directly to the manager.

## PAST PERFORMANCE

The indicated rates of return are the historical annualized and annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual funds are not guaranteed. How a fund performed in the past does not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

## Forward-Looking Statements

This management report of fund performance may contain forward-looking statements about the Fund, including its strategy, results of operations, performance and condition. Forward-looking statements include statements that are predictive in nature, or that depend upon or refer to future events or conditions. They are based on current beliefs, expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Fund and various economic factors. Many factors could cause the Fund's actual results, performance or achievements to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. These factors could include, among other things, general economic, political and market factors, including interest and foreign exchange rates, business competition, technological changes, changes in government regulations or in tax laws. Although the forward-looking statements contained in this report are based upon what management currently believes to be reasonable assumptions, the Manager cannot assure current or prospective investors that actual results, performance or achievements will be consistent with these forward-looking statements. The words "may", "could", "would", "should", "believe", "plan", "anticipate", "expect", "intend", "forecast", "objective", and similar expressions are intended to identify forward-looking statements.
